

# **BLUME'S<sup>®</sup>**

## **Piedrafina<sup>™</sup> Marble**

### **Care & Maintenance**

#### ***Care & Maintenance***

For routine cleaning, use a damp cloth or paper towel with a small amount of mild soap. For stubborn stains, you can incorporate a neutral non-abrasive pH cleaner along with a non-abrasive scrub pad. Rinse thoroughly after using any cleaning agent. It is recommended to apply a marble sealer by the manufacturer's recommendations.

#### ***General Precautions***

Avoid exposing your marble surface to any chemical or solvent. Do not allow your Piedrafina Marble Surface to come in contact with any chemicals that contain trichlorethane or methylene chloride such as paint removers and furniture strippers. If accidental exposure to any damaging product should occur, thoroughly rinse the affected area with water as soon as possible.
